

## **CNC Technician**

Sticks and Stones Fabricating Inc. (SSF) is located in the St. Stephen Industrial Park, St. Stephen, NB and fabricate custom stone products with a focus on countertops for residential purposes (e.g. kitchen and bath). We have an immediate opening for a CNC Technician.

Primary responsibility will be in the set-up and operation of CNC stone fabricating equipment. This position requires monitoring machine operation and control panel displays to ensure proper operation or detect malfunctions. Further, the operator is required to enter commands or manually adjust machine controls to correct malfunctions or correct, modify, or rewrite existing programs, as needed. Other duties include work piece placement and removal of finished work pieces, changing tooling, set-up, verifying required machining sequence and machine maintenance.

The successful candidate will have a basic understanding of fabricating machinery and knowledge of CNC equipment would be considered an asset. Knowledge of production processes and quality control along with strong arithmetic competency and general computer literacy is beneficial. An eye for detail and ability to check drawings for errors is critical. An ability to work in a fast-paced environment is required.

Moreover, the appropriate candidate will be a self starter and must have the ability and desire to learn. A high level of organization and excellent verbal and written communications skills are required. The ability to work collaboratively in a team environment is essential.

Sticks and Stones Fabricating has a strong commitment to quality and customer satisfaction. We are looking for individuals that are dedicated to providing high standards of quality and be part of a growing company with opportunity for individual growth. Training will provided for the appropriate candidate.

Pay is commensurate with experience plus benefits.

Interested applicants should forward their resume to:

Sticks and Stones Fabricating Inc.  
P.O. Box 332  
St. Stephen, NB E3L 2X2
